PROFESSIONAL SUMMARY

Computer Science and Engineering student graduating in 2027, with hands-on experience building web applications through internships and academic projects. I use React.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap, Node.js, and Spring Boot to create responsive interfaces and practical web features. My project work includes REST API integration, digital library features, and a machine-learning application. I'm seeking a Full Stack Developer role where I can contribute to reliable, user-friendly applications, learn from a team, and grow as a developer.
